LINKED LIST FOR EXAMPLE 3.1

The linked lists for the syntax graphs from Example 3.1 are shown below:

program →

true	begin

false	stmt_list

true	end

stmt_list →

false	stmt

true	;

true	empty

stmt →

false	var

true	=

false	expression

expression →

false	var

true	+

false	var

true	-

true	empty

var →

true	A

true	B

true	C
